FOR IMMEDIATE RELEASE

January 4, 2016

Lane Reductions at Saint Paul's Boulevard and Brambleton Avenue
Start January 7 through Early March

Update: The contractor will be working to install the northbound lane shift on Saint Paul's Blvd. over the next 3 days. This will require intermittent median lane closures between Brambleton Avenue and Olney Road. North and southbound traffic will be maintained.

Norfolk, VA – Beginning Thursday, January 7 through early March, lanes will be reduced at the Saint Paul's Boulevard and Brambleton Avenue intersection for [utility work by HRSD](#). Details follow:

Northbound on Saint Paul's Boulevard (heading from Downtown Norfolk):

- Through traffic will be reduced to one lane with a traffic shift.
- Left turns to Brambleton Avenue will be reduced to one lane.
- Right turns will not be restricted.

Southbound on Saint Paul's Boulevard(heading to Downtown Norfolk):

- Left turns to Brambleton Avenue will be directed to turn at Monticello Avenue, Bute Street, and Virginia Beach Blvd.
- Through traffic and right turns will not be restricted.

Eastbound on Brambleton Avenue (heading to Church Street):

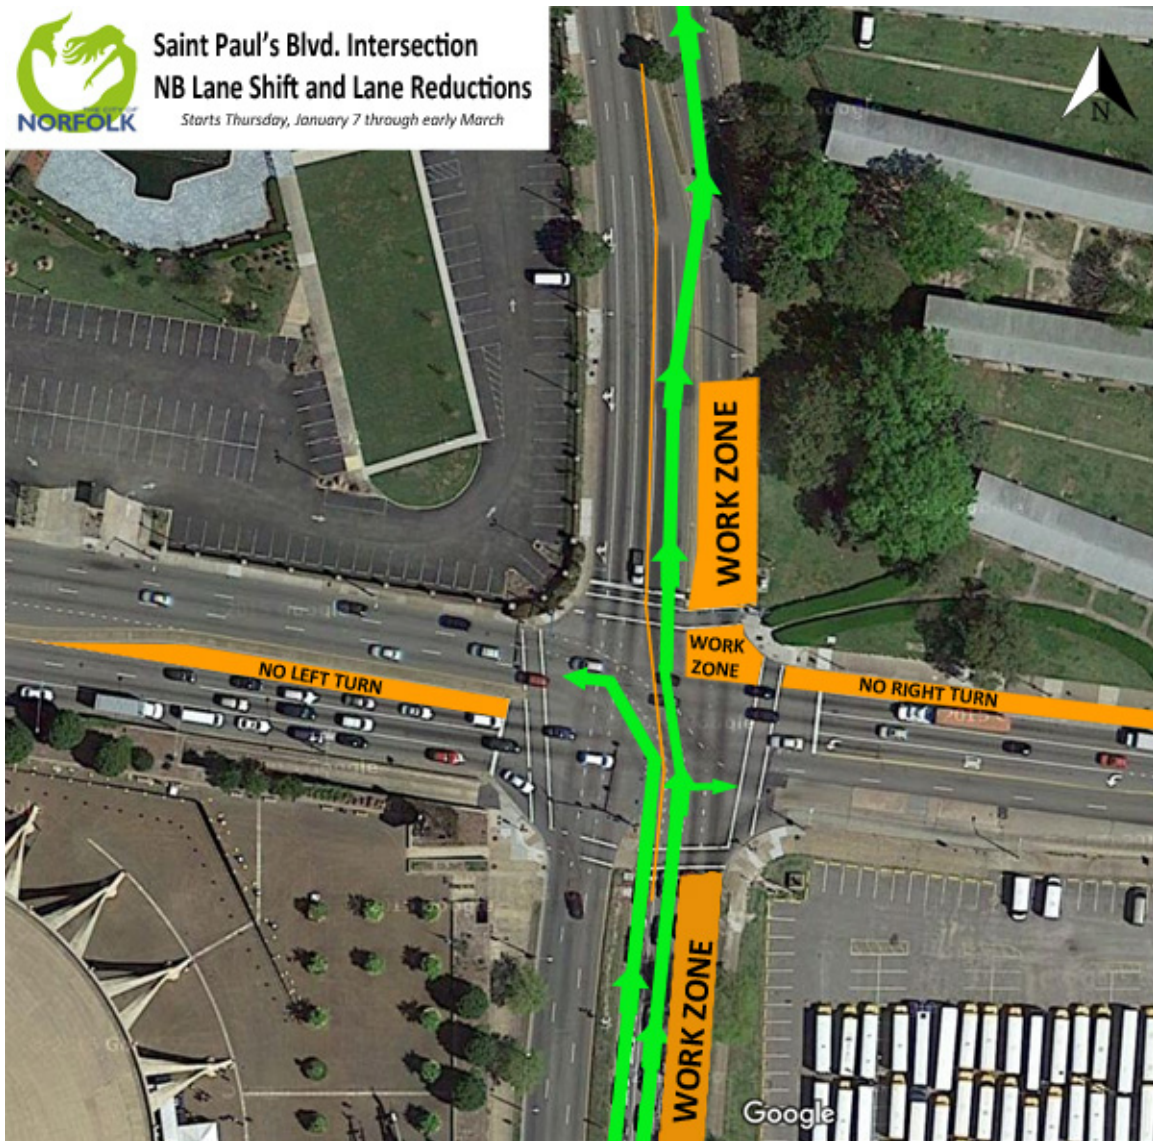

- Left turns to Saint Paul's Boulevard will be directed to turn at Monticello Avenue and Church Street.
- Through traffic and right turns will not be restricted.

Westbound on Brambleton Avenue (heading from Church Street):

- Right turns to Saint Paul's Boulevard will be directed to turn at Monticello Avenue.
- Through traffic and left turns will not be restricted.

MEDIA RELEASE

Motorists are encouraged to use Boush Street and Church Street as alternate routes. Norfolk Police will assist with traffic control at key intersections and during morning and evening rush hour. A map of the traffic pattern is attached.

The City of Norfolk has a 24-hour hotline to address construction concerns at (757) 664-7220.
